

Math Practice

Answer the questions.

- 1.) How many squares are there in one row? _____
- 2.) How many squares are there in two rows? _____
- 3.) How many squares are there in two columns? _____
- 4.) How many squares are there in four columns? _____
- 5.) How many squares are there in one column? _____
- 6.) How many squares are there in four rows? _____
- 7.) How many squares are there in the entire rectangle? _____
- 8.) If there were eight squares in a row and six rows, how many squares would there be? _____
- 9.) A rectangle contains 63 squares. If there are nine rows, how many squares are in each row? _____
- 10.) A rectangle contains 44 squares. There are 11 squares in each row. How many rows are there? _____

Math Practice

Answer the questions.

- 1.) How many squares are there in one row? **7**
- 2.) How many squares are there in two rows? **14**
- 3.) How many squares are there in two columns? **10**
- 4.) How many squares are there in four columns? **20**
- 5.) How many squares are there in one column? **5**
- 6.) How many squares are there in four rows? **28**
- 7.) How many squares are there in the entire rectangle? **35**
- 8.) If there were eight squares in a row and six rows, how many squares would there be? **48**
- 9.) A rectangle contains 63 squares. If there are nine rows, how many squares are in each row? **7**
- 10.) A rectangle contains 44 squares. There are 11 squares in each row. How many rows are there? **4**

Solve.
