## DENTIST

I am a community helper. I am a dentist. A dentist is a person who takes care of your teeth. I work in an office. You can come to my office and I will look at your teeth. I can check to make sure your teeth are healthy. Sometimes I need to take a x-ray of your teeth. An x-ray is a special kind of picture. The x-ray can tell me if your teeth are healthy. You can have your teeth cleaned in my office, and if something is wrong with your teeth, I can fix it. I will make sure you have a nice smile.

### FILL IN THE BLANKS.
