

Dinosaur Mouse Pad

Materials:

- black medium-tip marker
- foam glue
- light purple cardstock
- purple soft-foam sheeting 1/16"
- 12mm google eye (1)
- scissors

Instructions:

1. Print body pattern and cut out. Trace onto the soft foam sheeting and cut out.
2. Cut out four legs, head, and tail from pattern and trace onto cardstock. Cut out.
3. Glue the head and tail to the foam body. Next, glue on the legs, making two higher and two lower.
4. Draw smile on the head and three spots on the body with black permanent marker.
5. Glue eye on.

Students can also be encouraged to make different dinosaurs or creatures of their own choosing by drawing different leg, head, and tail shapes!
